

# WINDSOR HILLS CAMP

## Windsor, New Hampshire

### September 2009 Report

**ROAM Members:** Scott & Cynthia Prowell, project leaders; Jake & Carole Ellyson; David & Darlene Bone

Windsor Hills Camp was the site of a ROAM project this September. Jake and Carole Ellyson, David and Darlene Bone, and Scott and Cynthia Prowell, with daughters Sadie and Emma worked at the New England's District Camp.

Projects included repairs on two mobile home/staff houses which involved: removal of a back porch; application of new vinyl siding & new skirting; painting skirting; roof repairs; and construction of new stairs.

The men also worked to repair one of the larger cabin/dorms used by campers each summer. The rim joists had deteriorated and the floor had to be jacked up and rim joists replaced, along with some of the siding and repair of cabin stairs.

**The ladies kept busy by working on landscaping for three homes at the camp and various cleaning tasks.**

**The couples enjoyed several instances of fellowship together during times of devotion, singing around the campfire and frequent pot-luck meals together.**

**There were also sight-seeing trips to the Atlantic coast and the beautiful mountainous area of New Hampshire.**
